

Training at your fingertips. Literally.

PTI Online Academy

GO!

With constant changes in responsibilities and career mobility, it's easy to find yourself in the middle of a knowledge gap.

To help address the need for additional bottle-making and process knowledge by plastics industry professionals, PTI Online Academy—an on-demand, web-based video training program—is now available.

The subject matter targets entry-level professionals, as well as seasoned veterans who can benefit from refresher courses.

PTI Online Academy launches with multiple sessions in PET basics, performance and processing. The courses are:

- Introduction to Polymers and PET
- Container Design and Development
- Preform Design
- Barrier Container Technology
- PET Recycling
- Material Handling and Drying
- Blow Molding Processing
- Preform Heating
- Blow Molding Machine Practical
- and more!
