

PTI offers expert training

One-day training seminar

PET Technology for Packaging Applications (4 regions)

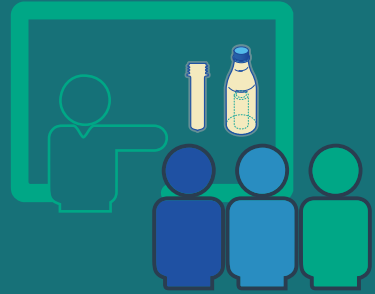

PTI Online Academy

- Introduction to Polymers and PET
- Container Design and Development
- Preform Design
- Barrier Container Technology
- PET Recycling
- Material Handling and Drying
- Blow Molding Processing
- Preform Heating
- Blow Molding Machine Practical
- *more* being added

Training courses

- Plastic Packaging for Hot-Fill/Aseptic Beverages
- Technology and Application of PET (U.S. and Europe locations)
- Thin-Wall Barrier Packaging
- Operator-Specific Training

Custom courses

- Barrier Technologies and Applications
- Biopolymers for Packaging Applications
- Hot-Fill Technology
- Operator Training – Blow and Injection Molding
- Packaging Design and Development
