

# Technology & Application of PET

## Training Course

The PET container industry is still growing each year. Thanks to its excellent mechanical and barrier properties and its good recycling capability, PET remains the packaging of choice for new products or for conversion from other packaging materials. Also, filling technologies are evolving rapidly to meet the demands of filling products like beer, wine, dairy products and pure fruit juices.

This course provides up-to-date information on PET container technologies and offers the opportunity to discuss your specific applications and questions.

## 3-day PET course will cover

- PET properties
- Material handling & drying
- Basics on injection molding
- Fundamentals of package development
- Essentials of blow molding
- When to use heat set application
- Barrier packaging technologies
- Understanding quality assurance & testing
- Recycling technology

### Registration fee

\$1,575 USD per attendee

*\* Fee includes registration, course material, refreshments, lunch and Tuesday evening dinner.*

### Course Dates

June 6 - 8, 2017

October 10 - 12, 2017

December 5 - 7, 2017

### Course Location

Plastic Technologies, Inc.  
1440 Timberwolf Drive  
Holland, Ohio 43528 - USA
